## THE DAILY NEWS.

The Boy-Murder at Savannah.

The telegraph has already briefly reported the fact of the cold blooded murder of little Charles P. Wilson, while out hunting near that city. The Savannah News gives the following partic-

nlars of the horrible affair: Charlie started out hunting early Monday morning with Frank Gue, a son of Alderman F. L. Gue, and hunted along the White Bluff Road. About twelve o'clock Frank turne' back, stating that as he had come out without permission he wanted to get back before his father came home to dinner. Charles said he Road. About twelve o'clock Frank turne' back, stating that as he had come out without permission he wanted to get back before his father came home to dinner. Charles said he would not go back then, but would sit down and rest awhile, which he then did, and this was the last that Frank saw of him. About dark Mrs. Wilson became uneasy, and a party was formed to hunt for him. And since then several parties have hunted day and night. On Tuesday it was ascertained that Charlie was seen at four o'clock the day before on the Middle Ground Road, with gun on shoulder, in company with a negro man and a mulatto youth. Since then nothing was heard of the missing boy until one o'clock yesterday; then one of the hunting parties were on Nortonjs waste ground, about two miles from the city and midway between the White Bluff and Thunderbolt roads, and had their attention attracted by a dead cow laying in the field, and rode towards it. Mr. Tow happened to turn his head to the left, and saw some buzzards circling around a pine thicket near by, and calling to Mr. Bennett and Mr. Wilson, who were nearest him, rode in that direction, followed by the others. Arriving there, they were horrified to find, laying dead, the body of him for whom they had been searching. The body was on the back. Both hands were thrown back of the head, with the hands clenched. Near the left side was his empty bird bag, and a few feet off his hat. At the feet lay a torn blue jacket, such as the negroes proudly wear after the soldiers cast them off. The gun and accourtemente were gone. There was an orifice in that right breast where a large ball entered. The ball then ranged obliquely through the body, coming out on the left side, near the sitth and seventh ribs, shattering one, and passing onward shattered the left arm at the elbow joint. The clothes were unrumpled, and there was no appearance that a struggle had taken place. There was every indication that the little fellow had been shot without being aware that there was any such intention, and had been tion, and had been instantly killed. From the testimony given at the coroner's inquest, and from statements of parties who saw the body, we have no doubt but that Charlie met with the mulatto youth and the negro man shortly after little Frank Gue left him, and was induced by them to go to this place to look for game. Arriving there, they left him to find his way out as best he could, and then, while he was endeavoring to make his egress, deliberately shot him, murdered him only for his gun and accountements, for nothing else was taken. The gun is represented as being very fine. They might have easily taken the gun away without killing him some may say. Most taken. The gun is represented as being very taken. They might have easily taken the gun away without killing him some may say. Most probably they feared to dort. Charlie frequently went hunting. Not long since, while out, he was accosted by two or three negro men, who said that they intended to take his gun away. Charlie very coelly replied, "II you take this gun you will have to take the loads first." He was noted for his coolness and determination, and the negroes, doubtless knowing this, were sfraid to attempt to take the gun boldly, but resorted to the bloody, but to them, as they thought, the safer plan of killing him. All who examined the wound agree in saying that the villain who fired the fatal shot could have been only a few paces from his victim, and standing above him or probably up a tree. The bushes are very thick where the deed was committed, and every one knows that a person pushing his way one knows that a person pushing his way through bushes generally leans forward. The left arm when Charley was shot was, of course,

short distance beyond Wathourville. He was brought to the city and lodged in the jail. The gun was not found. He has told several differ-ent stories, of course denying any knowledge of the affair; but circumstances lead to the belief, that he knows something about the mur-der. Another arrest was made at the inquest

the country. Seventh. Reform of abuses in the administration. the expulsion of corrupt men from office, the abro gation of useless offices, the restoration of rightful authority to and the independence of the executive and judicial departments of the government, the subordination of the military to the civil power, to the end that the usurpations of Congress and the

despotism of the sword may cease. Eighth. Equal rights and protection for naturalized and native-born citizens at home and abroad, the assertion of American nationality which shall command the respect of foreign powers and furnish an example and encouragement to people struggling for national integrity, constitutional liberty, and individual rights; and the maintenance of the rights of naturalized citizens against the obsolete doctrine of immutable allegiance, and the claims of foreign powers to punish them for alleged crime committed beyoud their jurisdiction.

In demanding these measures and reforms we arraign the Radical party for its disregard of right, and the unparalleled oppression and tyranny which have marked its career.

After the most solemn and unanimous pledge of both Houses of Congress to prosecute the war ex-clusively for the maintenance of the government and the preservation of the Union under the constitution, it has repeatedly violated that most sacred pledge under which alone was railied that noble

volunteer army which carried our flag to victory. Instead of restoring the Union, it has, so far as is in ts power, dissolved it, and subjected ten States in time of profound peace to military despotism and negro supremacy; it has nullified there the right of trial by jury; it has abolished the habeas corpus, that most sacred writ of liberty; it has overthrown the freedom of speech and the press; it has substituted arbitrary seizures, and arrests, and military rials, and secret star chamber inquisitions for the constitutional tribunals; it has disregarded in time of peace the right of the people to be free from searche and seizures; it has entered the post and telegraph offices, and even the private rooms of individuals, and seized their private papers and letters, without any specific charge or notice of affidavit, as required by the organic law; it has converted the American capitol into a Bastile; it has established a system of spies and official espionage to which no constitutional monarchy of Europe would now dare to resort; it has abolished the right of appeal on important constitutional questions to the supreme judicial tribunal, and threatens to curtail or destroy its original jurisdiction, which is irrevocably vested by the constitution, while the learned Chief Justice has been subjected to the most atrocious calumnies, merely because he would not prostitute his high office to the support of the false and partisan charges preferred against the President; its corruption and extravagance have exceeded anything known in history, and by its frauds and monopoles it has nearly doubled the burden of the debt created by the war; it has stripped the President of his constitutional power ment, even of his own Cabinet. Under its repeated assaults the pillars of the govern through bushes generally leans forward. The left arm when Charley was shot was, of course, down at his side, for the ball that came out be tween the ribs could not have shattered the elbow-joint, had it been otherwise. We are, therefore, inclined to the opinion that when Charley, was deserted by the negroes he attempted to get out of the thicket, and holding his gun in his left hand, at what is known as trail, pushed forward. While doing so his murders crept down a ditch near there, got on the bank in front, and as Charley was attempting to pass fired without warning, and he fell dead. From just such a position could such a wound have been made.

On Wednesday one of the hunting parties aspectively, and that any attempt by Congress on any pretext whatever, to deprive any State of this right, or interfere with its exercise, is a fingrant usurpation of power which can find no warrant in the constitution, and if sanctioned by the peopering sine double barrelled gun on his shoulder. A close search was made, but the parties could not be found. Shortly after the party learned that a negro had been seen on the Atlantic and Gulf Failroad going from the city, having a fine gun; and on being asked where he had gotten it for a small price. Mr. J. Henry went in search of the man yesterday morning, and caught him a short distance beyond Walthourville. He was shrought to the city and lodged in the jail. The ment are rocking on their base, and should it suc-

which is possible among its people, and so home-disposed of either under the pre-emption of home-stead lands, or sold in reasonable quantities, and to none but actual occupants, at the minimum price established by the government. When grants of the public lands may be allowed, necessary for the en-

public lands may be allowed, necessary for the encouragement of important public improvements, the proceeds of the sale of such land, and not the lands themselves, should be so applied.

That the President of the United States, Andrew Johnson, in exercising the power of his high-office in resisting the aggressions of Congress upon the constitutional rights of the States and the people, is on titled to the gratifude of the whole American people, and in behalf of the Democratic party we tender him our thanks for his patriotic efforts in that regard.

him our thanks for his parrious enterts in that regard.

Upon this platform the Democratic party appeal to every patriot, including all the conservative element, and all who desire to support the constitution and restore the Union torgetting all past difference of opinion, to unite with us in the present great struggle for the liberties of the people; and that to all such, to whatever party they may have heretofore belonged, we watend the right hand of fellowship, and hall all such co-operating with us as friends and

"THE BEST OF THEIR CLASS."

This Feries is meeting with a most gratifying re-ception from teachers everywhere, and is exactly what is needed for mental discipline, as well as for a practical preparation for the business of life. It is clear, thorough, comprehensive, logically arranged, well graded, is supplied with a great variety of ex-amples, and teaches the methods actually used by business men.

amples, and teaches the methods actually used by business meo.

Special attention is asked to the Practical. Its rules and analyses are free from unnecessary words: its methods are the shortest possible. Above all, it is adapted to the present state of things. During the last five years, specie payments have been suspended, prices have doubled, the tariff has been altered, a national tax levied, &c. Our book recognizes all these changes, and IT IS THE DALY ONE. THAT DOES—the only Arthanctic that describes the different classes of United States Securities, and shows how to find the comparative results of urrestments in them. Used in the Public Schools of New York, Brosklyn, Albany, Jersey City, &c., and giving the highest satisfaction. No progressive teacher can afford to use any other. This remedy accomplished this wonderful and de-lightful desideratum in all cases of external and in-ternal pain. In an instant it afforded relief, the moment it was applied to the parts of the body where inflammation or pain existed—it at once re-lieved the patient of the most violent and excruciat-ing pangs and throbs of pain, and imparted the de-lightful sensation of ease and comfort. Every kind of pain, whether Rheumatism, Neuralgia, Toothache, Pai s in the Chest, Side, Lungs, Stomach, Bowels, Kilners, Spine, Legs, Arms, Feet, one application was sufficient to kill and exterminate the pain.

Clear, well condensed, and consistent throughout; brief in its rules and definitions; happy in its illustrations; practical is its application of principles, inductive and philosophical in its arrangament; original in its views; bold in its reforms; every way adapted to the schoelroom; interesting to the pupil; labor-caving to the teacher; full and impenious in its explanations of perplexing constructions; makes the learning of Grammar easy; makes the teaching of Grammar a restrict PLASAURE. Such is the verdict pronounced on Quackenboe' Grammar by our best educators. Hosts of recommendations published in our Circular.

MY OWN CASE.

On Saturday night, the 19th, I was violently seized with Congestion of the Lungs. For a few days previous I leit a dull pain over my left lung, with occasional coughs, but teing actively engaged, paid no attention to it. When seized, the pain was so piercing, cutting and excruciating, that every breath drawn was like a red hot knite cutting my lung. Being absent from home, I sent out for three bottlee of RADWAY'S RELIFF, applied the entire left to my jungs, back, shoulders, &c., and in a few moments got up counter-irritation. Respirations were easy, and, as the skin became reddened, all pain ceased. In half an hour I was free from pain, and all signs of Congestion, Infirmmution, &c., gone. This is an important cure. It is well that every one should know how to use this remedy in severe attacks. The same rule holds good in cases of Infirmmation of the Loins, Bewels, Kidneys and Stomach. Apply the RELIFF freely; soak, the skin withit. It will instantly secure the withdrawal of the inflammation to the surface, and persons new suffering may, in THERTY MINUTES, be free frem pain. CHRONIC INFLAMMATION.

In cases where inflammation has existed for a length of time, in addition to the RELIEF, take six of RADWAY'S PILLS. Powder them. In half an hour, in most cases, they will operate. If net, repeat the dose. In one or two hours at the furthest they will operate, and the patient soon get well. It Billous, Typhoid, Fever and Ague, this treatment is sure to cure. Let it be tried.
